We were very much dismayed to see this accelerated process for this RFP. Rushing something through will not allow the best product to be considered by potential developers. This rushing process is also not fair to the incoming city council. Not all of you will have to live with these rushed decisions, dumping it on the incoming city council. Please follow your internal, defined process and take the appropriate amount of time to consider this important decision.

We were also concerned as there has been discussion over forgiving the $5M loan provided from the city for the golf course. This is just wrong. Maybe what should be incorporated into the golf RFP is a plan for this loan to be repaid. This loan was “our” money and we believe it is inappropriate for minimally 3 of you to forgive this debt.

We appreciate your consideration.

Subject: Tonights Agenda

To The City Council of El Segundo,

It has come to the attention of many of the residents of El Segundo that there is a RFP in the works for a third-party organization to manage The Lakes. There appear to be three significant issues which run counter to a fair and transparent process.

Timing. Many residents have reviewed the RFP document and timing and wonder, why are we rushing this? We spent years getting to a point where you rejected Top Golf, but this RFP process has truncated timing which is less than the minimum recommended or reasonable. I strongly urge you not to move forward with this request from the City Staff.

Third Party Assessment: the RFP consultant hired by the City recommended a third party engineering assessment of the club house to determine the present condition and determine what repairs are required. This has not been done. Why would we proceed without this? The RFP is incomplete and we will not have informed responses to the RFP.

Review of the RFP by the Lakes Task Force. According to a member of the Lakes Task Force, this draft RFP has never been reviewed by the Lakes Task Force. How can you in good conscience take this RFP and the request under review if the group you selected to work on this did not have a chance to review?

Please table this request to move forward with the Lakes RFP and work with the Lakes Task Force to develop a RFP and timing that will have a positive result for the City. As is, it flies in the face of an open, transparent and reasonable process.

Finally, it has been discussed that City staff is also asking the Council to potentially forgive the $5,000,000 loan from the general fund to the Lakes. That's $5 million, not $5,000 or even $50,000. Please do not even entertain forgiving this loan.

I wish that I could be at tonight's meeting to express my concern and dismay over the Lakes RFP process and the potential "forgiving" of the $5,000,000 loan. Neither of these are in the best interests of the City.

Thank you for listening,

Shemaine Smith, 9-year residents. 403 Indiana St #2

City Council of El Segundo,

It has come to the attention of

residents of El Segundo that there is a

RFP
process in the works
for a third-party organization to manage The Lakes
, that the timing is to be shortened, and that the City may potentially forgive the $5 million loan
. There appear
s
to be three significant issues which run counter to a fair and transparent process.
 In fact, it can be argued that this is intentionally damaging to the City and its residents.

1)

Timing. Many residents have reviewed the RFP document
and its timing:

why rush? We spent years getting to a point where you rejected Top Golf, but this
request allows
timing
that is significantly
less than the minimum recommended or reasonable. I strongly urge you not to move forward with this request
from the City Staff.

2)

Third Party Assessment

The RFP consultant hired by the City recommended a third party engineering assessment of the club house to
determine the present condition and repairs required. This has not been done. Why would we proceed without
this? The RFP is incomplete and we will not have informed responses.
3)

**Review of the RFP by the Lakes Task Force.** According to a member of the Lakes Task Force, this draft RFP has never been reviewed by the m. How can you in good conscience take this RFP and the request under review if the group you selected to work on this did not have a chance to review?

**Please**

*table this request to move forward with the Lakes RFP and work with the Lakes Task Force to develop a RFP and timing that will have a positive result for the City*

. As is, it stands against an open, transparent and reasonable process.

Finally, it has been discussed that City staff is also asking the Council to potentially forgive the $5 million loan from the general fund to the Lakes. Please do not even entertain forgiving this $5 million loan.

I wish that I could be with you to express my concern and dismay over the Lakes RFP process and the potential "forgiving" of the $5 million loan. Neither of these are in the best interests of the City, and the residents do now that this to happen.

Thank you for listening.

Subject: The Lakes RFP

Dear Mayor Fuentes and Council Members,

After spending 5 years negotiating with Top Golf and ultimately voting against a deal, we are outraged that the City Council now wants to rush a decision on The Lakes.

The City Council should not shorten the RFP response time.

The City Council should not bypass The Lakes Task Force.

The City Council should not forgive the $5M loan made to The Lakes from the general fund.

The current City Council should act in the best interest of our City and not rush to a vote before the new City Council takes office.

Sincerely,

Beth and Jeff Schodorf

Council Members:

It should go without saying that no action should be taken on the Lakes property in a hurried manner just to close any deal. The conversation regarding the Lakes has been going on for years and it is in no one’s interest to rush such major decisions. In fact, the haste to act smells very fishy. This process needs to see the light of day, including the forgiveness of a loan.

Subject: Vote No to rush RFP for The Lakes

Dear City Council Members,

Please do NOT rush the RFP process and do NOT forgive the $5,000,000 loan from the general fund to The Lakes.

There is no reason to rush this process. The City has been waiting over 5 years to decide what to do with The Lakes, the City can wait another 6 - 8 weeks to go through the formal process.

It is very upsetting to see that the City Council wants to rush this important decision before the election and not have it go through the formal process that protects us as a City. In addition, it is incomprehensible that this has not be drafted nor reviewed by the Lakes Task Force.

From what I understand, the City cannot afford to forgive the $5,000,000 loan so I am shocked to find that this is even on the table.

Thank you for your consideration and I hope that you vote NO to rush the RFP process and NO to forgive the $5,000,000 loan.

Subject: Golf Course RFP

All,

The effort to now issue an RFP, Five years into negotiations and planning for the golf course is clearly a last ditch effort by those on the Council who oppose TopGolf to lock up any other deal regardless of what is best for the city. With the exception of two members, this Council has shown the most unfriendly business attitude towards not only TopGolf but many other large business’s attempting to enter our town.

Top Golf is a $800,000,000 a year Company. They would have done all course improvements at their cost, enabling the Lake to not only turn a profit but also pay back their $5,000,000 Loan.

You are now asking the $5,000,000 Loan to not only be forgiven, but also asking companies to take on an RFP that will better the Top Golf Deal? Or if they cannot you will award based on merit with part of the cost to reconstruct being covered at the cities expense? How would you pay for these improvements? Pass a Bond? The city could not even afford a new swimming pool, it was paid for by private donations, and years of volunteers services. Our Schools rely on the Education Foundation, our City Events are covered by Chevron and Continental Development. Take the Centennial Celebration which was largely paid for by Continental Development and Mr. Lundquist. This event took place on the heels of shooting down TopGolf due to the impatience of certain council members who could not await his review. A review which they requested.

This entire process has been financially irresponsible and now rushed as a last ditch effort by 3 incompetent Council Members who are not interested in the wants and needs of the city regardless of their constituents voices.

Subject: The Lakes RFP

As a long time resident of El Segundo, I want to voice my concern for what seems to be a rushed RFP process to decide on the next 20 years of the Lakes management. From my understanding there is a task force put in place by this city council that is not being consulted in the current RFP process. It seems to me that the normal RFP timeline is being rushed to get a decision made before a certain date that coincides with 2/5's of the city council being decided by general election.

I am strongly against forgiving/dissolving any debt or loans the Lakes owes the city of El Segundo without a complete and thorough RFP process that includes; plenty of time for communication and plenty of time for additional RFPs from many interested parties that may or may not include a plan to repay the debt.

It seems to me that this is a last ditch effort by a city council to force through their agenda before the people of El Segundo get a chance to voice their opinion in this matter through the ballot box. I would strongly recommend that this become one of the top topics that each potential candidate takes the time to communicate their plan and thoughts on this matter as they earn the votes of the people. I ask that the existing council continue to gather information but that no decision be made until after the new city council has been elected. Please allow the people to make this decision at the upcoming election through their vote for the new city council members.

I have lived in El Segundo since 1999. My wife Danielle and I have served this city and its families for several years in a variety of ways. I have coached softball and soccer teams through the local recreation leagues now for 6 years. I have served on the board of El Segundo Girls Softball for 3 years and am currently the President. My wife is currently serving on the Richmond Street PTA board. She also serves and protects our local beaches as a Captain on the Rescue Boats with the Los Angeles County Lifeguard. I write all this not to brag as many in this
city serve just like yourselves to make this a great place to live and raise our children. But I write this to show we are are committed to El Segundo and have a lot invested in what it is currently and what it can be in the future. Please take my concerns and requests seriously.

Subject: The Lakes RFP Agenda Item - City Council Meeting 2/20/2018

Dear Elected Officials of El Segundo,

I have great concerns regarding the City Council Agenda item regarding a Request for Proposals (RFP) for the Management and Operations of the Lakes at El Segundo Site currently on the agenda for the February 20, 2018 El Segundo City Council meeting. After a review of the Agenda Report prepared by El Segundo City Staff and the actual RFP itself I feel compelled to urge all Council Members to vote NO on this item.

This entire RFP process is being rushed, and to what end? The City Council spent 5 and a half years negotiating with Top Golf. Now the City Council wants to rush through an RFP on the same issue (what to do with the Lakes) in less than 1/10th the amount of time. WHY? There has been no sufficient answer given to this question. The only reason I can see for the rush to complete this RFP process is for the current city council to take action before any new council members are sworn in from the upcoming City Council election.

The City Council formed a Task Force to determine what company is best qualified to run the Lakes, via an RFP process. However, to my knowledge, the Task Force has not had an opportunity to review the RFP which has been developed by Staff due to time constraints dictated by the City Council. The staff report even points out that the a normal RFP process allows for responses to be due between 42-56 days. However the current version of the Lakes RFP allows for only 34 days for proposers to respond. Yet another example of just how rushed this RFP process is.

Included in the Staff Report is the discussion about possible forgiveness of a $5,000,000 loan made from the City of El Segundo General Fund to the Lakes at El Segundo Enterprise Fund. As a tax paying resident of El Segundo I urge you to vote no on this portion of the staff report as well. I simply do not want my general fund tax dollars used to “supplement” the users of the Lakes. A municipal enterprise fund should, at a minimum, break even. Ideally a municipal enterprise fund should make a profit. Forgiveness of the $5,000,000 loan from the general fund would be an incredibly poor financial management practice.

One thing is for sure this RFP, and the last 6 years of time and energy spent on negotiations with Top Golf, is an example of incredibly poor public policy from an elected body. In my opinion any action taken by the City Council to move forward with this RFP in this rushed and incomplete format, and any forgiveness of the $5,000,000 loan is not in the best interest of the people of El Segundo.

Thank you for your time and attention to this critical matter,
Sincerely,

Samantha Lee

Subject: Lakes RFP Process

City Council and other City officials,

I strongly disagree with the rushed RFP process that the current Council is attempting to force. I have participated in many RFP's in my professional career, and there is never a good reason to rush this process. All this can accomplish is to guarantee that we will not receive the best possible bids/bidders that will most benefit the City as a whole. The only reason that I can see to rush the process, is that the current Council want to make sure that they control the process so that they can set their personal agenda above the needs of the many citizens of El Segundo.

We just worked with Top Golf for 5 years on a proposal to overhaul and run the Lakes, and now you would like the citizens to believe that you are going to accomplish something better in only 34 days? I find this to be extremely unethical, and borderline criminal.

Please do not let your personal agenda continue to rule your decision making process when making decisions that will affect all the residents of El Segundo for 20 years.

Regards,

Kirby Weaver

Subject: Lake RFP Release

Council Members and City Officials:
I am emailing to strongly protest the effort to issue an RFP for the Lakes before adequate study has been completed to understand what modifications to the clubhouse and surrounding infrastructure is required and the ridiculously short RFP response time of thirty four days. As a former Northrop Grumman executive who oversaw and evaluated many major business proposals, this process and response time will preclude the City from getting the best possible high-confidence response from bidders. The Mayor, who also worked at Northrop Grumman, well understands all of this and yet continues to push a totally inadequate process and time line on the RFP. It is quite clear that the current lame duck 3-2 majority of the council is trying desperately to get this decision made on their personal preferences before the new council is seated while not allowing the council-appointed Lakes Task Force to complete evaluation/validation of the RFP. This behavior is at least unethical and belies our resident’s trust in the council to “do what’s right for the City” and not what they want to see.

More to consider....in making the 3-2 vote to terminate Top Golf after FIVE YEARS of “good faith” negotiations, the current council ignored the unanimous recommendations to proceed with Top Golf by the Planning Commission and Economic Development Advisory Committee, and cut off Richard Lundquist from completing his review of the Top Golf proposal which would have resulted in a better deal for the City. The council had asked Richard, who has been a long time major contributor to the growth and future of El Segundo, to restructure the Top Golf deal
to the benefit of the City. Draw your own conclusions, but this is far more than circumstantial evidence that the council majority was voting for their personal preferences as opposed to what is right for the City and our residents. I STRONGLY URGE THE COUNCIL TO RECONSIDER MOVING AHEAD WITH THE RFP UNTIL THE TASK FORCE STUDY IS COMPLETED AND ADEQUATE TIME IS ALLOCATED FOR RFP RESPONSE

Subject: The Lakes Task Force

Dear El Segundo City Council,

I understand that the Lakes Task Force was created, by the City Council, to create and administer a Request for Proposal to determine what company is best qualified to run the Lakes. Now I hear the council wants to rush the process of the RFP. I don't understand why you would want to rush the process, if you asked for the RFP in the first place. Why not let the process run its course? This (Lakes) has been an item on the council for so long, what's another couple of months?
Also, I have heard, the Lakes has a loan from the city that they have not paid back. It sounds like the Lakes needs some help. If this RFP does not come up with a company, the council can agree on, then maybe it's time to look into the Lakes management.
Please consider letting the RFP run its course.

Thank you,

John Telfair
