

AGENDA

CITY OF EL SEGUNDO

ENVIRONMENTAL COMMITTEE

MEETING LOCATION: VIRTUALLY VIA ZOOM

DUE TO THE COVID-19 EMERGENCY,
THIS MEETING WILL BE CONDUCTED
PURSUANT TO THE GOVERNOR'S
EXECUTIVE ORDER N-29-20.

REGULAR MEETING OF THE
EL SEGUNDO ENVIRONMENTAL COMMITTEE
FRIDAY, July 9, 2021 – 12:00 P.M.

How Can Members of the Public Observe and Provide Public Comments?

Residents are encouraged to participate remotely in the virtual Environmental Committee Meeting. Please contact Senior Management Analyst Jasmine Allen for connection details (jallen@elsegundo.org or 310-524-2365). Members of the Public may provide comments electronically by sending them to Jasmine Allen via email, with a limit of 150 words and accepted up until 30 minutes prior to the meeting. The emails will be read to the Environmental Committee during public communications and are subject to disclosure under the Public Records Act.

Additional Information

The Environmental Committee, with certain statutory exceptions, can only take action upon properly posted and listed agenda items. Unless otherwise noted in the Agenda, the public can only comment on City-related business that is within the subject matter jurisdiction of the Environmental Committee, and items listed on the Agenda during the **Public Communications** portion of the meeting.

In compliance with the Americans with Disabilities Act, if you need assistance to participate in this meeting, please contact the City Clerk (310) 524-2305. Notification 24 hours before the meeting will enable the City to make reasonable arrangements to ensure accessibility to this meeting.

1. CALL TO ORDER
2. ROLL CALL
3. PUBLIC COMMUNICATIONS – (Related to City Business Only and for which the Committee is responsible – 5 minute limit per person, 30 minute limit total) *While all comments are welcome, the Brown Act does not allow the Environmental Committee to take action on*

any item not on the agenda. Environmental Committee members may respond to comments after Public Communications is closed.

4. SPECIAL PRESENTATIONS:

- a. Blue City Network, presented by Evelina Marchetti (attached Overview, Minimum Requirements, and Assessment)

5. REPORTS: PUBLIC WORKS – *this portion of the agenda is for City staff to provide brief reports to the Committee. These are “receive and file,” non-action items only. Any actions needed to be taken must be included on an upcoming agenda.*

- a. Air Quality Violation Notice from AQMD

6. ACTION ITEMS:

- a. None

7. REPORTS: ENVIRONMENTAL COMMITTEE MEMBERS – *this portion of the agenda is for members to discuss various ideas and for subcommittees established by the Committee to provide brief reports on the work being done by the subcommittee. These are “receive and file,” non-action items only. Any actions needed to be taken must be included on an upcoming agenda.*

- a. City Assessment of Environmental Risks (Corrie Zupo/Tracey Miller-Zarneke): discuss partnership of City/Committee to track and protect residents’ health from environmental impacts from surrounding industries
- b. Community Garden Expansion Concept (Corrie Zupo/Sarah Brockhaus): provide update on outreach to DEI & Culture Advisory Committees for possible collaboration.
- c. Green Construction (Corrie Zupo/Sarah Brockhaus): discuss how to support solar panel expansion opportunities with new construction or ways to make city RFP have sustainability design standards for city bid projects.
- d. Smoking Considerations Presentation (Tracey Miller-Zarneke): discuss presentation tentatively scheduled for August 17th.
- e. Public Education Packet Opportunities (Caroline Hawks): discuss progress.
- f. Solid Waste Reduction/Elimination of Single-Use Plastics (Caroline Hawks/Tracey Miller-Zarneke): discuss next steps.
- g. Water Conservation (Rachel McPherson): discuss research progress.

8. CONSENT AGENDA: Approval of June 11, 2021 Committee Meeting Minutes (attached). Recommendation: Approval.

9. ADJOURNMENT

PROGRAM OVERVIEW

The Blue City Network is a free certification system that recognizes cities, towns, and counties that demonstrate their communities' commitment to healthy waterways and oceans. Participants gain access to proven resources and blueprints provided by top environmental nonprofits, cities, and governmental agencies. Upon certification, participants become part of the Blue City Network, a coalition of communities from around the world that collaborate in their ongoing quest to become true champions of the environment.

The certification process provides a clear, data-driven approach to assessing communities' efforts towards protecting our world's oceans. Certification allows communities to credibly and transparently track progress toward overall sustainability objectives. Communities receive a rating based on the total cumulative score of points achieved across the rating system.

The intent of this program is to establish a network of cities, towns, and counties that are willing to implement, collaborate, and share information on jurisdictional sustainability programs across four Solution Areas: Waste Minimization; Climate Protection and Community Resilience; Water Quality and Efficiency; and Healthy Ecosystems.

PARTNERS

California Coastkeepers Alliance, Inland Ocean Coalition, Lonely Whale, LA Waterkeepers, Monterey Bay Aquarium Seafood Watch, Oceana, Ocean Institute, Plastic Pollution Coalition & Surfrider Foundation

ASSESSMENT

The initial part of the program involves the city's completion of an Assessment form, comprised of 80 YES or NO questions, divided into four sections. Each section focuses on a Solution Area, each with 20 questions. The four Solution Areas are Waste Minimization; Climate Protection and Community Resilience; Water Quality and Efficiency; and Healthy Ecosystems.

INNOVATION CATEGORY (part of the Assessment)

The Innovation category is reserved for cities that are implementing projects, programs, policies, or other actions that honor a specific Solution Area, yet were not addressed in any of the questions. Such actions deserve to be accounted for and acknowledged as part of the overarching mission that Blue City intends to achieve.

POINT SYSTEM & CERTIFICATION TIERS

For each question in the assessment, a YES answer receives 5 points, and a NO answer receives 0 points. In addition, cities can earn up to 25 extra points per area under the Innovation category for a maximum score of 125 points per Solution Area.

200-299 pts = Ocean Guardian

300-399 pts = Ocean Champion

400-499 pts = Ocean Hero

500 Total pts = Ocean Ambassador

BLUE CITY

YOUR COMMUNITY. OUR OCEAN.

Blue City Assessment

SOLUTION AREA 1: WASTE MINIMIZATION

Worldwide, cities are rapidly expanding, creating visible environmental challenges. The generation of waste is one of the central concerns in urban areas. Particularly for plastic, as plastic pollution has been increasing at an alarming rate- approximately 200% annually since 1950 and it is escalating. Certified Blue Cities are deploying proven techniques to decrease the amount of pollution generated and capture it before it spreads to landscapes and waterways. While each city's specific tactics should be customized to local conditions, pollution reduction can be achieved cost-effectively through a combination of leveraging local regulatory authorities, establishing retailer responsibility requirements, collaborating with partners and engaging citizens to resolve pollution hot spots.

Minimum requirements:

1. Your city has adopted local regulation aimed at reducing or eliminating single-use plastics.
2. Community-based recycling and organics collection services are offered to residents and businesses.

Has your city met both of the above minimum requirements? If "No" please skip to Solution Area 2. *

Yes

No

OBJECTIVE 1: Eliminate single-use plastics and polystyrene

1. Does your city currently have a citywide ban on expanded polystyrene (Styrofoam) products and unencapsulated maritime buoys and coolers? (e.g. buoys, cooler or ice chest made of polystyrene foam where such foam is not fully encased in another material).

Example: [City of Malibu, Municipal Code 9.24.040](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 1 here:

If applicable, please upload a file that accompanies your answer to Question 1.

Browse...

2. Does your city have a city-wide ban or “upon request only” policy for single-use plastic disposable items? Food providers and beverage providers are prohibited from distributing single-use plastic beverage straws, lids, plastic stirrers or plastic utensils, whether for use onsite, to-go, or delivery. Disposable straws, lids, stirrers, utensils and take-out container products must be non-plastic.

Example: [City of Berkeley, Single Use Foodware and Litter Reduction Ordinance](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 2 here:

If applicable, please upload a file that accompanies your answer to Question 2.

Browse...

3. Does your city require a preferential environmental policy for vendors participating in city-hosted events and events held on city-owned property to enforce the prohibition of single-use plastic disposables and polystyrene products?

Example: [City of Sacramento, Sustainable Purchasing Policy](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 3 here:

If applicable, please upload a file that accompanies your answer to Question 3.

Browse...

4. Does your city have enforceable zero-waste requirements for vendors participating at city-hosted and city-permitted events?*

*Accommodations: Food providers and beverage providers, as well as City facilities, City-managed concessions, City-sponsored events, and City-permitted events, may retain and dispense plastic straws as an accommodation to people with disabilities who request them to enjoy equal access to food and beverage services within the City.

Example: [City of Solano Beach, Ordinance 504](#) *

- Yes
- No
- Other- Please explain below

Please add any additional information that accompanies your answer to Question 4 here:

If applicable, please upload a file to accompany your answer to Question 4.

Browse...

OBJECTIVE 2: Zero waste initiatives available to all residents and businesses

5. Does your city provide community organics collection for both food and green waste?

Example: [City of Stockton, Green/Food Waste Recycling](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 5 here:

If applicable, please upload a file that accompanies your answer to Question 5.

Browse...

6. Has your city adopted a zero-waste plan or resolution?

Example: [City of San Diego, Zero Waste Plan](#) *

- Yes
 - No
 - Other - Please explain below
-

Please add any additional information that accompanies your answer to Question 6 here:

If applicable, please upload a file that accompanies your answer to Question 6.

Browse...

7. Does your city have an established program or ordinance in place to reduce, reuse and recycle community construction and demolition waste?

Example: [City of San Diego, Zero Waste Plan, page 6](#) *

- Yes
 - No
 - Other - Please explain below
-

Please add any additional information that accompanies your answer to Question 7 here:

If applicable, please upload a file that accompanies your answer to Question 7.

Browse...

8. Does the City promote local services or programs that offer reuse, repair, or recycling of difficult-to-recycle items?

Example: [City of Berkeley, Recycling Services](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 8 here:

If applicable, please upload a file that accompanies your answer to Question 8.

Browse...

OBJECTIVE 3: Create and maintain private-sector strategies aimed at maximizing diversion of materials

9. Has your city incorporated food waste reduction strategies into your zero-waste initiatives?

Example: [City of Manhattan Beach, Residential Food Waste Recycling Program](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 9 here:

If applicable, please upload a file that accompanies your answer to Question 9.

Browse...

10. Does your city encourage businesses to enroll in third-party green business program that includes plastic education and/or meet the vetted standards of third party certification programs? (eg. Surfrider Ocean-Friendly Restaurant Program, Clean Bay, CAGBN)

Example: [City and County of San Francisco, Green Business Program](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 10 here:

If applicable, please upload a file that accompanies your answer to Question 10.

Browse...

11. Does your city have established minimum waste diversion requirements for restaurants and retailers?

Example: [City and County of San Francisco, Requirements for Restaurants and Retailers](#) *

- Yes
 - No
 - Other - Please explain below
-

Please add any additional information that accompanies your answer to Question 11 here:

If applicable, please upload a file that accompanies your answer to Question 11.

Browse...

12. Does your city provide waste-reduction related resources to local businesses, or promote other local agencies? (e.g. rebates or micro-loans, services, audits, and technical assistance).

Example: [City and County of San Francisco, 'Zero Waste Toolkit for Businesses'](#) *

- Yes
 - No
 - Other - Please explain below
-

Please add any additional information that accompanies your answer to Question 12 here:

If applicable, please upload a file that accompanies your answer to Question 12.

Browse...

OBJECTIVE 4: Increase Public Information and Engagement

13. Does your city provide informational resources to residents on the impacts that plastic pollution has on the environment, its risks to public health and the associated costs of mitigation? Resources also include solutions on how to reduce the consumption of single-use plastics, emphasizing the importance of source-reduction (e.g. websites, tabling, flyers, surveys, and web outreach).

Example: [City of Oceanside, "Love our Planet Not Plastic"](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 13 here:

If applicable, please upload a file that accompanies your answer to Question 13.

Browse...

14. Does your city have community-wide educational efforts on available services, incentives, and facilities as well as proper recycling/composting/source reduction methods?

Example: [City and County of San Francisco, SF Recycles](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 14 here:

If applicable, please upload a file that accompanies your answer to Question 14.

Browse...

15. Does your city sponsor or support community volunteer efforts? (e.g. cleanups, beautification efforts etc.).

Example: [City of Oakland, Sustainable Oakland](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 15 here:

If applicable, please upload a file that accompanies your answer to Question 15.

Browse...

16. Are there services available in your city that offer waste-reduction based training for residents?

Example: [City of Santa Cruz, Recycling and Waste Reduction](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 16 here:

If applicable, please upload a file that accompanies your answer to Question 16.

Browse...

OBJECTIVE 5: Partnerships and Collaboration

17. Does your city participate in, or promote regional voluntary waste reduction programs for residents and businesses?

Example: [City of Monterey, Household, Business, and Multi-Family Recycling](#) *

- Yes
 - No
 - Other - Please explain below
-

Please add any additional information that accompanies your answer to Question 17 here:

If applicable, please upload a file that accompanies your answer to Question 17.

Browse...

18. Does your city formally engage in state-level policy actions on zero-waste such as waste diversion legislation or regulation?

Example: [City of San José, Zero Waste Strategic Plan, Page 5 and more](#) *

- Yes
 - No
 - Other - Please explain below
-

Please add any additional information that accompanies your answer to Question 18 here:

If applicable, please upload a file that accompanies your answer to Question 18.

Browse...

19. Has your city developed or participated in a regional coalition that enhances the community's ability to address waste management targets?

Example: [City of Yorba Linda, CalRecycle](#) *

- Yes
 - No
 - Other - Please explain below
-

Please add any additional information that accompanies your answer to Question 19 here:

If applicable, please upload a file that accompanies your answer to Question 19.

Browse...

20. Has your city created a Materials Recovery Facility for the community or demonstrate that community waste is diverted to a regional Materials Recovery Facility?

Example: [City of Monterey, MRWMD Materials Resource Facility](#) *

- Yes
 - No
 - Other - Please explain below
-

Please add any additional information that accompanies your answer to Question 20 here:

If applicable, please upload a file that accompanies your answer to Question 20.

INNOVATION

Innovation points are rewarded to cities that have implemented successful projects, programs, laws or other actions that honor a solution area's overall purpose, yet may not fall under any specific category. While the Blue City program was designed to be comprehensive, sustainability is a continually evolving discipline. We want to acknowledge your city for evolving and being innovative and highlight your actions so other cities may model what you have accomplished.

In this section, please share anything specific your city has done in a creative, effective way regarding Waste Minimization. Feel free to be as detailed as you wish and include any links to articles, websites or other relevant information. Our Blue City internal team will analyze your answers and will reward up to 25 points based on the success of your initiatives (5 points for each Innovation.) Please note that this section is for Innovations that are not already addressed in the Assessment questions.

SOLUTION AREA 2: CLIMATE PROTECTION & COMMUNITY RESILIENCE

Successfully executing meaningful reductions in greenhouse gas pollution and preparing for the impacts already underway will require bold and broad measures by cities. By doing their part to reduce greenhouse gas emissions while working to adapt and improve their resilience to climate hazards, certified Blue Cities are creating safer, healthier, and more resilient communities. Actions in this area increase the supply of renewable energy, improve building energy efficiency, and increase access to affordable, low carbon transport options resulting in a transition to a just and low-carbon economy.

Minimum requirements:

1. City has adopted a climate action and/or resilience and adaptation strategy with sector-specific carbon reduction goals and greenhouse gas emission targets that meet or exceed those adopted at the state level.
2. City has conducted local climate risk and/or climate-related vulnerability assessment.

Has your city met both of the above minimum requirements? If "No" please skip to Solution Area 3. *

Yes

No

OBJECTIVE 1: Achieved reductions in greenhouse gas emissions

21. Has your city conducted a consumption-based greenhouse gas inventory?

Example: [City of Manhattan Beach, Community Greenhouse Gas Emissions Inventory Report](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 21 here:

If applicable, please upload a file that accompanies your answer to Question 21.

Browse...

22. Has your city established a community-based advisory committee or group to inform ongoing climate-related policies, programs and investments?

Example: [City of Redwood, Community Climate Action Plan, Community Climate Action Advisory Committee](#)

*

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 22 here:

If applicable, please upload a file that accompanies your answer to Question 22.

Browse...

23. Has your city established internal emission reduction goals related to city operations and facilities?

Example: [City of Sacramento, Climate Action Plan for Internal Operations](#) *

- Yes
- No
- Other- Please explain below

Please add any additional information that accompanies your answer to Question 23 here:

If applicable, please upload a file that accompanies your answer to Question 23.

24. Does your city host a data-driven community dashboard or other performance measurement initiative to track and report overall progress toward community climate goals?

Example: [City and County of San Francisco, Greenhouse Gas Emissions Scorecard](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 24 here:

If applicable, please upload a file that accompanies your answer to Question 24.

Browse...

OBJECTIVE 2: Strengthened resilience of communities to climate change impacts in infrastructure and natural, economic, health and social systems

25. Does your city support, lead and/or partner with other agencies on coastal resilience and restoration projects on local habitats? (e.g. dune and wetland restorations).

Example: [City of Manhattan Beach, Beach Dune Enhancement Pilot Project](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 25 here:

If applicable, please upload a file that accompanies your answer to Question 25.

Browse...

26. Has your city conducted a coastal vulnerability assessment and developed an adaptation plan that prioritizes enhanced coastal resilience through living shoreline practices to address the impacts associated with sea-level rise?

Example: [City of Malibu, Malibu Living Shoreline Project](#) *

- Yes
- No
- Other - Please explain below

Please add any additional information that accompanies your answer to Question 26 here:

If applicable, please upload a file that accompanies your answer to Question 26.

SOLUTION AREA 3: WATER QUALITY AND EFFICIENCY

Water quality is essential for public health, ecosystem health and the economy. Degraded water quality can occur as a result of pollution from sewage discharge, oil spills, industrial waste, agricultural runoff, storm water runoff, and sediment runoff. Impacts of poor water quality include exposure to disease and harmful chemicals, reduction in viability of economically important fisheries species, hypoxia events and destruction of ecosystems.

Minimum requirements:

1. City has established an outreach strategy on stormwater impacts and pollution associated with runoff.

2. City has established water efficiency and conservation requirements that meet those in the currently adopted building code. (eg. adopt CA Green Code, Reach Code or Net Zero Ordinance)

Has your city met both of the above minimum requirements? If "No" please skip to Solution Area 4. *

Yes

No

OBJECTIVE 1: Best practices for safe and efficient water and wastewater systems

41. Has your city worked with local wastewater service providers to determine whether biosolids can be recycled by using them on local landscaping, golf courses, community parks or other programs to improve soil quality and reduce irrigation needs?

Example: [The City of Santa Rosa, Biosolids](#) *

Yes

No

Other - Please explain below

Please add any additional information that accompanies your answer to Question 41 here:

If applicable, please upload a file that accompanies your answer to Question 41.

INNOVATION

In this section, please share anything specific your city has done in a creative, effective way regarding Water Quality & Efficiency. Feel free to be as detailed as you wish and include any links to articles, websites or other relevant information. Our Blue City internal team will analyze your answers and will reward up to 25 points based on the success of your initiatives (5 points for each Innovation.) Please note that this section is for Innovations that are not already addressed in the Assessment questions.

SOLUTION AREA 4: HEALTHY ECOSYSTEMS

The actions identified in the Healthy Ecosystems Area help communities protect and restore the places that provide resources to support life. Maintaining functioning urban ecosystems can significantly improve human health and well-being. Certified Blue Cities are taking the important steps to protect vital ecosystems while recognizing the wide range of benefits natural systems provide, such as food, water, and natural regulating processes affecting climate and floods. Ecosystem services also extend to cultural benefits like aesthetic value and recreation, and achieving the identified actions increase the ability of urban, wildland and agricultural ecosystems to capture and stabilize atmospheric carbon and provide critical buffering against climatic extremes (including storm surges, sea level rise, fires and floods).

Minimum requirements:

1. City has adopted plans or requirements to protect and restore natural resources through land conservation, wildlife corridor connectivity, and restoration of biological integrity and function.
 2. City has adopted local design criteria and associated codes that require the inclusion of green infrastructure.
-

Has your city met both of the above minimum requirements? If "No" you may end the assessment here if finished. *

Yes

No

OBJECTIVE 1: Protect, enhance, and expand ecosystems that increase resilience to future shocks and stresses through adaptive management strategies

61. Has your city adopted land use regulations that establish appropriate wetland, stream, and shoreline buffer widths and adjacent land uses?

Example: [City of San Diego, San Diego Municipal Code, Land Development Code](#) *

Yes

- No
 - Other - Please explain below
-

Please add any additional information that accompanies your answer to Question 61 here:

If applicable, please upload a file that accompanies your answer to Question 61.

Program Overview

The Blue City Network is a certification system that recognizes cities, towns, and counties that demonstrate their communities' commitment to healthy waterways and oceans. Certification involves completing a detailed Assessment that evaluates a city's current environmental initiatives and programs. The Assessment is divided into four Solution Areas: Waste Minimization; Climate Protection and Community Resilience; Water Quality and Efficiency; and Healthy Ecosystems.

Minimum Requirements

The initial part of the Assessment is completing a Minimum Requirements form. For each of the four Solution Areas, there are two requirements that the city must achieve or be in the process of achieving in order to complete the certification process. The questions are in 'yes' or 'no' answer format. The requirements are as follows:

Waste Minimization

1. Your city has adopted local regulation aimed at reducing or eliminating single-use plastics.
2. Community-based recycling and organics collection services are offered to residents and businesses.

Climate Protection and Community Resilience

1. City has adopted a climate action and/or resilience and adaptation strategy with sector-specific carbon reduction goals and greenhouse gas emission targets that meet or exceed those adopted at the state level.
2. City has conducted local climate risk and/or climate-related vulnerability assessment.

Water Quality and Efficiency

1. City has established an outreach strategy on stormwater impacts and pollution associated with runoff.
2. City has established water efficiency and conservation requirements that meet those in the currently adopted building code. (eg. adopt CA Green Code, Reach Code, or Net Zero Ordinance)

Healthy Ecosystems

1. City has adopted plans or requirements to protect and restore natural resources through land conservation, wildlife corridor connectivity, and restoration of biological integrity and function.
2. City has adopted local design criteria and associated codes that require the inclusion of green infrastructure.

City of El Segundo

ENVIRONMENTAL COMMITTEE

MEETING MINUTES

Friday, June 11th, 2021, 12:00 p.m.

1. CALL TO ORDER

The meeting was called to order at 12:01 pm, held virtually via Zoom.

2. ROLL CALL

The following Committee Members were present:

- Tracey Miller-Zarneke, Resident, Local Business, Committee Chair
- Corrie Zupo, Resident, Committee Vice-Chair
- Kevin Maggay, Local Business, Member
- Rachel McPherson, Resident, Member

The following Committee Members were not present:

- 1 vacancy, El Segundo School District, Member

The following City staff member(s) and resident were present:

- Elias Sassoon, City of El Segundo, Director of Public Works
- Jesus Diaz, City of El Segundo, Admin Tech Specialist
- Anjello Sotelo, Executive Assistant to the City Manager
- Sia Poursabahian, Development Services

3. PUBLIC COMMUNICATION

Carol Notte – Resident

Deborah Deets – Resident

4. Special Presentations

a. Aviation Blvd. Greenway Project, presented by Jessica Daugherty

5. REPORTS: Public Works

- a. Presentation by Development Services regarding Solar Panel requirements for New Development.
- b. Report on Date of Smoking Considerations Presentation to City Council is tentatively set August 17th.

- c. Shuttle and Dial-a-ride Considerations – Elias Sassoon states there is a 3-year pilot project with consideration of the work hours being M-F 5 am – 10 am and 2 pm – 7pm.
6. ACTION ITEMS:
None
7. REPORTS: COMMITTEE MEMBERS
 - a. Tracey Miller-Zarneke and Corrie Zupo question whether the city does anything regarding the air quality of the city residents. Elias clarifies that it does not as it would not be able to as policies would have to change.
 - b. Community Garden Expansion Concept update: Is waiting on the committees to vote on it in July and will bring it up again to bring further updates.
 - c. Green Construction (Corrie Zupo/Sarah Brockhaus): no update
 - d. Smoking Considerations Presentation (Tracey Miller-Zarneke): no update
 - e. Public Education Packet Opportunities (Caroline Hawks): no update
 - f. Solid Waste Reduction/Elimination of Single-Use Plastics update: There is no update.
 - g. Water Conservation (Rachel McPherson): No update.
8. CONSENT AGENDA:
Approved Minutes for May 7th, 2021 meeting. Member McPherson moved to approve; Member Zupo seconded the motion. The motion was approved unanimously.
9. ADJOURNMENT:
Closing announcement: Next meeting will be held on July 9th, 2021 at noon.

Meeting was adjourned at 1:29 p.m.
