Subject: Land Acknowledgment

To all elected officials,

I support the land acknowledgment remaining on the Arts and Culture Committee meeting agendas and even expanded to additional public meetings. This statement is important to respect the history and people of the land that has allowed Arts and Culture activities to occur. Including land acknowledgements in meetings, conferences, and other presentations is common and often expected currently from El Segundo, to Denver, Boston, and many cities in between. Thank you for your consideration.

Best,

Julie McCarthy
