Subject: EDCO & trash receptacles

Dear Mayor Boyles,

There must be something to do about the trash receptacles on Mariposa between Penn and Sheldon. The other night (Wednesday) when it was raining, I could not see the receptacles in the road because of glare and darkness; they were not next to the curb. I hit one and broke a rear view light (several hundred \$\$ to fix).

Please require EDCO to put reflective tape around the top and sides of the receptacles so they are visible ... A cheap fix unless you have a better idea.

Sincerely,
Cheryl Gore
