Subject: CCL de-brief

Good morning Council,

After attending the RP&L Commission meeting last night and reading thru my agenda prior I understand a CCL de-brief has already taken place with city staff and a resident regarding issues positive and negative regarding this year's event. So was this prior to my notifying you of a numerous residents in the CCL neighborhood wanting to have a meeting? I did have a reply from a few of you in reply to my email about this meeting and I would be hearing something back. I did not hear anything back about a meeting of concerned residents coming together. So could you please let me know what is going on as this kind of plays into what many residents are saying about the city not listening to the residents surrounding CCL.

Thank you,
Julie
