Subject: Loud Noise from Concert in Inglewodd

All Council,

I hope that this situation with Sofi Stadium and the current noise from this concert will be dealt with swiftly and will never occur again. I really have no patience for this situation after suffering for years with the horrific Airbnb situation behind our home. This sound level cannot possibly be legal and healthy when it is louder than the aircraft operations at LAX.

I would hope that you are having someone take sound measurements.

Subject: Sofi concert noise

Reaching out to encourage the city to formally complain on behalf of el segundo residents about this outdoor festival at sofi. I live on the top of Sheldon st and the music from sofi can be heard inside my soundproofed house at levels that are not background noise. Similar to the noise from LAX, our neighbors don't care about impacts to anything but their wallet and I believe we need to advocate for our town aggressively. If there are any local agencies we can place a report with I would be happy to do so.

Thanks

Chris Michaels
