Subject: Parking Zone 3

Hello Elected Officials:

I am a resident at 501 Washington Street (NW corner of Pine Ave and Washington St). I have just a couple of thoughts about the Zone 3 Pilot Parking Program.

1) Thank you for responding to the 4 residents who asked for signage on east Pine Avenue between Washington and Kansas Streets (the sides of our homes).

2) I am hopeful that should the Pilot Program decide to be adopted that the council will consider doing away with the 24/7 enforcement and adopt what I've seen in other permitted areas a couple of staggered hours where permits are required.

We host a weekly group, have a large family in the area, and like to host general get-togethers with friends and have found it difficult to do so with the 24/7 limitation and just 2 guest passes. I have borrowed from neighbors (I know many of them) but feel it isn't right to impose on them on a weekly basis for help.

Thank you for listening.

Sincerely,

Teri Hogoboom
